

DAILY NEVADA STATE JOURNAL.

VOL. 7.

RENO, WASHOE COUNTY, NEVADA, FRIDAY MORNING, JUNE 8, 1877.

NO. 59.

STATE NEWS.

Virginia City has 2,200 children of school age, and Gold Hill 1,400, total for Storey county, 3,600.

Kinsman, who was stabbed in Virginia a few days ago, is in a fair way of recovery. The would be assassin is still unknown.

The date of the new trial of Harrington has not been set as yet as the remittitur has not arrived from Carson. It is expected in a day or two.

Sheriff Ramm, of White Pine, has just put three prisoners in the State Prison: Roach, sentenced to imprisonment for life for murder; Leonard, ten years for murder; Crawford, seven years for highway robbery.

A large body of rich ore has been struck in the incline shaft of the Eberhardt and Aurora Company, at a depth of 1,200 feet. Old White Pine will come largely to the front one of these days.

The Carson River Wool Company Monday cut their boom near Silver King, Alpine county, and sent adrift 30,000 cords. Sam Longbaugh is superintendent. The favorable stage of the river warrants the expectation of a quick and successful drive.

The case of Miles Quillen, the defaulting Treasurer of Lincoln county has been continued until the July term of the District Court of that county. It is thought he will be able to strengthen up his account before the case comes on for trial.

The Carson Mint is just now engaged in the coining of trade dollars. These are making at the rate of something like \$10,000 per day. The institution will close on the 9th for the annual clear up. Dr. Linderman is expected shortly.

C. P. Bailey, of San Jose, Cal., has purchased what is known as the Bailey range, on Mill Creek. Mr. Bailey pronounces it the finest sheep range he has ever seen and having the largest flock of Angora Goats in California, it is presumed he is a good judge. In about three weeks he will return with 300 head of goats to put on this range.

Layman Brown, now residing in Churchill county, had a most sad mishap befall him about ten days ago. He was driving out accompanied by three of his little children, and while crossing a gulley in the road the children fell from the wagon the wheels passing over a boy aged five years and causing his death within a very short time.

There are but two men working underground in Lyon county. These are in the South End mine. All the other mines are shut down. The mills about Silver City which have been in operation for the past six months on Justice ore, will henceforward be idle, the ore being now shipped to the mills on the Carson river. Silver City will therefore be pretty dull in future.

A Romance of Egypt.

Ismail Pasha, late the Egyptian Finance Minister, was a remarkable man. Originally one of the lowest grocers in the stables of the Khedive of Chosbra, his first step on the ladder of fortune was gained by a marriage with a liberated slave from the harem who speedily initiated him in all the mysteries of that institution, and showed him how by an artful use of harem influence a man might raise himself to almost any eminence in the State. Ismail profited by his wife's advice, cultivated the harem through her, and found himself eventually the most powerful subject in the kingdom. He amassed an enormous fortune, and his expenditure was lavish beyond even Oriental extravagance. His harem was one of the largest and most celebrated in the East. It consisted of 300 women, all young and beautiful—for Ismail would have no woman in his harem over the age of thirty—and two corps de ballet, one of French, the other of Hindoo girls. Every night he was conducted to his chamber by twenty young girls, clothed in fantastic and magnificent attire, blazings with gold and jewels, each carrying in her hand a gilded taper-stick, and each taper giving out a different colored light. Immediately after his death his harem was bought up by the rich Beya and Pashas, and fabulous prices were said to have been paid for some of the beauties. His jewels are computed to be worth \$3,500,000, and as everything is forfeited to the Khedive, that astute ruler will make a good thing out of the death of his Finance Minister.

19,500 New Farms Started Within a Year.

Does any one know how many new farms were opened in the States and Territories last year; how many new log cabins have been built; how many acres of virgin soil plowed up for the first time? It is not probable any one does know with exactness; but there is a little table in the report of the Secretary of the Interior, presented to Congress some time ago, which furnishes the material for an approximately correct answer to these questions. During the year ending with June last there were taken up under the Homestead Law 1,875,000 acres. New land taken up under the Homestead Law is for actual cultivation, and is generally taken in lots of 160 acres. It would appear, therefore, that more than 17,000 new farms were commenced last year under the Homestead law alone. But this is not all. There were sold during the year 649,961 acres for cash, and 137,619 acres were allotted on military land warrants. It is no doubt true that a portion of these 788,580 acres were bought or entered by other than actual settlers, by speculators or by persons who made investments of this nature for future purposes. It would be fair to estimate, however, that one-half of the 788,580 acres were purchased or entered for the purpose of immediate settlement or cultivation; and this calculation would give us 394,290 new farms of 160 acres each. There were also 21,018 acres entered upon the Stomx and Chippewa half-breed scrip, and 6,073,841 acres taken up under the Timber culture law. Leaving these two latter items out of the calculation, we have an aggregate of about 18,500 new farms commenced during the year. This means 18,500 new homes. In five years from now these 18,500 farms, under good management, ought to produce annually some 20,000,000 bushels of wheat, some 40,000,000 bushels of corn, and some 400,000 head of cattle or swine—making provisions more than enough to furnish meat and bread for New York City for a year.—N. Y. World.

A ROYAL VISIT.—The London *Advertiser* says: It is pretty well settled that the Prince and Princess of Wales leave England for Australia in the Winter of 1878-9. They will return through the United States. The country will pay all the expenses and the royal couple will thus be able to effect a little economy, which their straitened resources very much need. The Prince, without being extravagant, has now spent every farthing of the money which was accumulated during his minority of the Duchy of Cornwall rents, and he is now running into debt. If the Queen does not assist him he must soon apply to Parliament; but the Australian visit is meant to save off the evil day.

H. W. BARLOW,

S. L. JONES has been elected superintendent of the Crown Point Mint.

There are sixteen prisoners in the Storey county jail, of whom two are women.

Ten murderers are to be executed in Pennsylvania on the 21st of this month.

The Sierra Nevada mine is looking better and better, which is comforting to the boys.

Ten thousand sheep lie dead near Desert Springs, twenty-six miles beyond M. Jave, on the road to Nevada.

Mount Vesuvius has been in an unusual state of agitation for some days, showing at night fire at the mouth of the new crater.

The tax on the net proceeds of the mines for the quarter ending March 31st will be collected next week, and will amount to about \$92,000.

The men who attempted to rob Lincoln's grave have been trying to get free on worthless bail, and their accomplices have been arrested.

The Modocs are at Baxter Springs, Arkansas. The children attend school and learn well. Bogus Charley has professed Christianity. All of the band are now partially self-supporting.

DIVIDENDS to the amount of \$2,046,176 were declared last month by various incorporated companies doing business in San Francisco. By far the greater portion—\$2,383,200—were paid by mining companies.

The authorities at the United States military prison at Leavenworth, Kansas, propose to manufacture all the shoes needed by the army, and the necessary machinery is being put in for that purpose.

SECRETARY McCARY has just saved the Government a large amount of money by annulling the contract for building the War Department edifice and renovating it. Owing to the vast shrinkage in prices of material and labor, it makes a saving of one third.

HARRINGTON has been allowed another trial by the Supreme Court because a leading question was asked him during his recent trial for murder committed in Storey county. We fear the Supreme Court is prone to magnify a mole hill into a mountain.

PRESIDENT HAYES is said to be favorable to Congressional aid for the construction of a Southern Pacific Railroad—not to any particular scheme but the one which will result the most speedily in the construction of the road. The anti-subsidy cry seems to be a dead issue in the United States now.

SEVERAL English railroad companies are noted for the fast time made by their locomotives. One for instance has made a run equal to 75 miles an hour, another 75, others 72, 70, 69, 68, etc. Mr. Patrick Stirling, of the Great Northern, took 16 carriages 15 miles in 12 minutes, equal to 75 miles an hour.

THERE is almost a general strike now among the laborers of the Pennsylvania Railroad Company, who have peacefully agreed to hold out against the proposed reduction. The laborers propose that some merchants arbitrate between them and the Company.

They have since thought better of it and have resumed work at fourteen cents an hour.

A DENVERITE who has been at the Black Hills, makes this report: Mineral region limited; some rich rock and gravel deposit; 80 miles will soon be at work; producing placers are few; all claims taken up; the country overflows with pilgrims and tenderfeet; every tent, dry goods box, cabin and all the streets are lined with men anxiously waiting for something to turn up; ten men around where one is needed; the principal imports of Deadwood City are whisky, tobacco and inexperienced miners; horse thieves, murderers and road agents, numerous; farming and grazing repurchases good.

DISTANCE LENDS ENCHANTMENT.

Ever since the discovery of gold in California, mining excitements have been of periodical occurrence. In fact a large number of prospectors have done little else than rush from one field to another, always pursuing a phantom fortune which eludes their grasp just as they think it secured. So a perpetual unrest pervades the life of a prospector and he rushes hither and thither to satisfy it. Just now the Black Hills furnish a field for the adventurers and they are rushing in there by the thousands. Probably Arizona will come in for the next excitement. We have noticed, however, that these fields are all far away from the settlements, and nothing but hardship and want is the proffered lot to the hosts who rush in. In their blind race for wealth they frequently pass better and more comfortable fields of labor. We are led to these remarks at this time by the situation around Reno. Pyramid needs prospecting and it needs capital. If a fraction of the money now being thrown into wildcat Black Hills mines was placed in Pyramid, in one year's time we would have a camp second only to the Comstock. But it is too near home. Remove Pyramid to Montana or British Columbia, and a wild rush would be made for it, and the camp fearfully overdone. Unfortunately for Pyramid it is but a few hours travel from the railroad, over good roads, and comforts can be had reasonably. This won't do for a rush, so Pyramid must go begging for capital, while fortunes are being thrown away in getting to the Black Hills to starve or be fleeced by wild cat.

PRESIDENT HAYES has announced his intention during the remainder of the term, to decline any and all offers of private hospitality. It is a question whether this resolution springs from a sense of the necessity of sustaining his dignity by bringing himself under no obligations for personal favors or whether his recent experience in New York has anything to do with it. In any event, it is best that a President should keep himself free from all embarrassments that are likely to arise from a habit of accepting personal courtesies.

No wonder there is a lively struggle going on in San Francisco for the possession of the city offices for the next two years. The estimated expenses of the city are a shade under \$1,000,000 for the next year. Eight millions of dollars is a pretty good sum for a political party to handle. Besides there will be about two millions more in the shape of street improvements not paid for out of the city treasury. And there is a further prospect of a thirty million dollar water job.

Sunday School Picnic.
The committees having the union Sunday School picnic in charge have not yet decided what to do in the matter. Two places are spoken of, Donner Lake or Bower's Mansion. The Central Pacific asks \$80 a car and \$40 for engine for the excursion train, while the V. & T. ask but \$40 per car, with no extra for engine. A clog in the way of the festivity is the dullness of the times, and church people are unwilling to take any expense upon themselves which will embarrass them. We think the picnic could be made a success without any expense to the schools, and hope we may have it.

City of the Dead.
Mr. Sanders informs us that he has put a new fence around his cemetery, and will put up a gate and steps in a few days. The sagebrush has all been cleared out, and next season he will lay it off in lots, with nice walks between. We like to see the last resting places fixed up. It shows a respect for the departed which is commendable and proper.

We notice that a large majority of the emigrants coming this way are women and children, which is bad, for they are not as well calculated to rough it as men are, and rough it they must, for a while at least.

THE Directors of the California Mining Company to day declared the usual dividend of \$2 per share, payable on the 15th inst. The Consolidated Virginia dividend will be declared on the 10th.

SPARKING of the religious feature of the Eastern War, a Carsonite made the grave assertion that it would "crystallize the Turk." The Tribune is responsible for such Partingtonism.

THE water in the river is muddy for some cause.

TELEGRAPHIC MELANGE.

MOST IMPORTANT ITEMS IN YESTERDAY'S DISPATCHES.

England's Case Critical.
London, June 7.—It is reported that a serious division exists in the British Cabinet. Salisbury is supposed to be strongly opposed to undertake any warlike action. Notwithstanding that the mobilization of the various army corps is still in progress, it is quite evident that England is not so ready for offensive operations as her War Secretary professes. The Queen's continued absence is still giving rise to great dissatisfaction among all classes. There is no doubt that Earl Grey has demonstrated with her on the impolicy of her course. The Government has determined that it will not at present withdraw the garrison from the west coast of Africa. I had an interview with Midhat Pasha to-day, and he tells me that he is expecting hourly to be recalled.

Must Respect the United States.
Washington, June 7.—Secretary Lyarts, alluding to the alleged outrage on the whaler Ellen Ripsey by Spanish cruisers, says that while he was sensible of the friendly relations between Spain and the United States he did not intend to allow an outrage upon our flag, and while Spain would be held responsible for the insult, he would see that the Government fulfilled all its obligations.

Greenback Convention.
Columbus, Ohio, June 7.—The State Greenback Convention was a small affair to-day. The resolutions denounce both the great political parties for bringing no relief to the country, and reaffirm the greenback platform of 1876. Among other resolutions is one favoring the remonetization of the silver dollar. Stephen Johnson was nominated for Governor and John B. Powell for Lieutenant-Governor.

Miscellaneous.
Washington, June 7.—The Louisiana Constitutional Union Association to-day presented the President with a bust of himself.

The Southern Memorial Association to-day decorated the Confederate Graves at Arlington Cemetery. Ohio has not received the lion's share of the public offices, but is less favored than many other States. Gov. Noyes has been appointed to the French Mission, and not Banks as reported.

The pier on the south side for the new bridge is about complete and yesterday the excavation was dug for the one on the north end.

An assessment of 40 cents per share upon Mexican is announced. This makes the 21st Comstock mine upon which an assessment is now pending.

An assessment of \$1 50 has been declared upon Justice. More rustling for the boys.

A lime and coal house is being built down below the Reno Lumber Yard by Manning & Duck.

Dr. Snow is building a residence on Center street, just opposite Judge Webster's. This is a very pleasant portion of the town.

GREY & ISAACS have just received a lot of children's kid gloves. The tiniest hand can be fitted.

The County Not Responsible.

The following caution has been posted up at each end of the temporary bridge across the river:
"Washoe county will not be responsible for any accident that may occur crossing this temporary bridge."
T. K. HYMERS,
Chairman Board Co. Com.
A few days since a very narrow escape from injury occurred. A man was driving a team across it when a dog ran between one of the horses' legs and scared him so that he began to plunge and charge and came within a shade of causing the outfit to fall in the river. By skillful management the driver kept the horses on the bridge and finally landed safe on the other side.

Fine Strawberries.

We were yesterday shown the finest, largest and most delicious strawberries we ever saw. They were raised on Poor's ranch, about three quarters of a mile from Reno up the river. So large and fine were they, in fact, that W. R. Chamberlain intends to send some of them over to California, to show them that Nevada raises something besides sagebrush and bullion. These berries will compare favorably with any.

Fourth of July Meeting.

A few citizens only responded to the call for a meeting to discuss the feasibility of celebrating the approaching 4th, at the Court House last evening. Those who did assemble organized by electing Mr. Sherman chairman and C. J. Brookins Secretary. The meeting then adjourned until this evening at 7 o'clock at the Justice Court, when it is hoped a large crowd will be in attendance.

Troubadours.

On Monday evening next Salsbury's Troubadours will appear at the Reno Opera House, in "Patch-work." This troupe has received a great deal of praise from the press wherever it has appeared, and the Comstock papers have been particularly lavish in their encomiums. They are said to exceed anything we have had for a long time. Admission \$1, and no extra charge for reserved seats.

My aim will be to give 25 cents worth of goods for every two bits received, and any article not as represented the money will be refunded. No two prices, a child can buy as cheap as a grown person. Mr. McMillan has a large number of square timbers lying on the banks of the Truckee, which he proposes to drive down the river very soon, as far as Reno. This seems like swindling the R. R. Co., but no one will deny that they are unjust in not giving us better rates on lumber and timbers, thus enabling us to patronize them. It is a well known fact that the present rates demanded by the C. P. and V. A. T., has effectively barred our millmen and timber men from furnishing any lumber or timbers, that can be obtained elsewhere. Mr. McMillan is pursuing the right course, and will, no doubt, reap a handsome revenue. His plan is practicable, and we do not see why others cannot follow his example. He intends closing the dams on the river for a sufficient length of time, placing his timbers in the river bed, then at an appointed moment, have the gates simultaneously raised. The water will then come tearing down, and with terrific speed the huge timbers will go thundering along till caught in the boom prepared, and not withstanding they will be somewhat torn and mangled, still they will be, in reality, unimpaired.

There is no dodging the V. & T. though, for Truckee river don't run along that road. Is it true that the owners of that road are the ones who have these large timber interests on Tahoe's east shore? If so, it's not to be wondered that they should fix tariffs to bar us from supplying Virginia. We'll have to growl, and wait for Don's Steam Wagon, our only salvation, unless the managers of the R. R. see fit to give us a chance, which is improbable.—Truckee Republican.

The growing custom of pulling the chair at the pulpit end of the church has the very serious drawback that it prevents a man from turning around and looking up at the organ in a critical manner just before the contribution box approaches his pew.

When a man is treating a dashing widow to ice cream, and sees his wife coming into the restaurant, about all he can do is to button his coat, hang to his chair and trust to Providence.—St. Louis Journal.

Another mysterious disappearance of a bank clerk is reported. They are not dragging the ponds for him. They are looking over his accounts.

There is only one thing at present more complicated than American politics—the American barber's breath.
